

Welcome to CS 2220

Dear Students,

This is Dr. Bernard Chen, the new Department Chair of Computer Science at Troy University.

It is a pleasure to have you in **CS 2220 Numerical Methods in Computing**. I look forward to an engaging and productive semester together.

I am scheduled to travel to Hanoi and deliver the face-to-face portion of the class from **5/18-29**. Before my arrival, you will complete several **online learning modules** designed to prepare you for our in-person sessions.

The **first module** will focus on **Python Installation** as shown in Week1 Module, you have one week to submit the assignment that requires you to install Python, Print out "Hello World" and pip numpy to your Python IDE.

I look forward to meeting you all in Da Nang this December. If you have any questions, please feel free to contact me directly at chenb@troy.edu.

Best regards,

Dr. Bernard Chen

Chair, Department of Computer Science

Troy University
