

Assignment

- Write a function `my_triangle(b,h)` where the output is the area of a triangle with base, b , and height, h . Recall that the area of a triangle is one-half the base times the height. Assume that b and h are just 1 by 1 float numbers.
- What to submit: Take a screenshot of your code AND all three testing results shown below

```
In: my_triangle(1, 1)  
Out: 0.5
```

```
In: my_triangle(2, 1)  
Out: 1
```

```
In: my_triangle(12, 5)  
Out: 30
```
