Assignment for Lecture 1

1. What are the differences between procedural programming and object oriented programming?

2. Find an example in the real world where the Object Technology is applied with success.

3. Setup the environment for compiling and running Java programs. Follows the guide in the section 1.10 Test-Driving a Java Application in the text book Java How to Program 9th edition, run the ATMCaseStudy and take the snapshot of the screen in each step.
