Important Reminder – Troy Student ID Required for All Submissions

Dear Students,

Effective immediately, **all assignment, project, and exam submissions must include your Troy University Student ID number**, along with your full name.

This requirement is necessary because multiple students may have identical or similar names in the university system. Including your Student ID will help ensure that your submissions are correctly identified and that grades are accurately recorded.

Please make sure your **full name and Troy Student ID number appear clearly at the beginning of every submission**.

Thank you for your understanding and cooperation.

If Student already submitted, Please resubmit again for Assignment 2
