Week 2: Chapter 1

Dear Students,

Please review the **Chapter 1 Introduction** recording available in the course modules.

During the recording, I briefly mention the midterm examination. Please disregard that portion of the recording, as it is not relevant to our current course schedule.

For now, please focus on studying **Chapter 1**, reviewing the lecture materials, and completing the assigned coursework.

Important Reminder – Assignment Submission Format

All assignments must be submitted in a **digitally typed format**. Please follow these guidelines:

- Type your answers using Microsoft Word, Google Docs, or another appropriate word processor.
- Submit your completed assignments in PDF format unless otherwise specified.
- **Handwritten answers, photographs of notebook pages, and screenshots of handwritten work will not be accepted.**
- Ensure that your answers are clearly organized, complete, and readable before submission.

These requirements are intended to maintain consistency in assignment submissions, improve readability, and allow for fair and efficient grading.
